 ADVANCE CARE PLANNING  

**Resources**
Caring Conversations* resources provide guidance through the advance care planning process to diverse audiences.

**40,000+ people**
connected with online and print materials in English and Spanish.

**Long-Term Care**
CPB initiated curriculum development for long-term care professionals and essential healthcare workers on how to hold family discussions about treatment options prior to a health crisis such as COVID-19 that might separate patients and loved ones.

**Transportable Physician Orders for Patient Preferences**
TPOPP is the Kansas and Missouri version of POLST (Physician Orders for Life-Sustaining Treatment).

**In the Workplace**
This program enables companies to provide advance care planning education, consultation and advocacy when an employee or loved one experiences serious illness. In 2020, we renewed agreements with Hallmark, Evergy and North Kansas City Hospital.

**Healthy Living Through Faith**
This project aims to increase African American participation in advance care planning through the lifespan.

**PAINS-KC**
PAINS-KC seeks to transform the way pain is perceived, judged and treated in KC and to establish patient-centered integrative pain management as the standard of care in our safety net clinics. Citizen Leaders gathered monthly for education and advocacy, and participated in the Alliance to Advance Comprehensive Integrative Pain Management Pain Policy Congress in May with more than 900 participants.

**COMMUNITY EDUCATION AND ENGAGEMENT**
With the Annual Dinner event cancelled due to COVID, we shared stories about 16 of 23 Ethics Champions and the video, “Practical Bioethics in the Time of COVID.”

**Flanigan Lecture**
BIOETHICS RESOURCES

Resources at PracticalBioethics.org include more than 4,000 reports, guidelines, policy briefs, program resources and audio/video recordings since 1982, including more than 50 new webinars.

MEDICAL EDUCATION

The University of Kansas Medical Center in collaboration with The University of Kansas Health System renewed its contract with CPB for the 12th consecutive year, including CPB oversight of the hospital’s clinical ethics consultation service. CPB staff taught bioethics to 860 Kansas City University of Medicine and Biosciences medical students.

PROFESSIONAL EDUCATION & CLINICAL SERVICES

CPB introduced agreements with providers and health systems to replace traditional charitable support. Ethics Direct (basic) and Ethics+ (expanded work for hire) agreements support, facilitate and improve performance of ethics committees and clinical staff dealing with ethically complex cases. 13 Ethics Direct agreements + 3 Ethics+ services with 29 hospitals/health systems

CPB provided webinars, workshops and the Ethics Dispatch monthly newsletter to 40 institutional ethics committees involving more than 500 individuals who participate in the Kansas City Regional Ethics Committee Consortium.

POLICY AND CONSUMER GUIDANCE

CPB responded to calls for help — from individuals seeking guidance in a healthcare crisis to leaders crafting COVID-19 policies.

Over 500 hours were devoted by staff to consulting with hospitals and healthcare organizations on ethical implications of policies and procedures.

POPULATION HEALTH & DELIBERATIVE DEMOCRACY

With the arrival of Erika Blacksher, PhD, as the fourth John B. Francis Chair, we began expansion of CPB’s longstanding commitment to justice and equity in health, focusing on community-based deliberations in search of priorities and solutions.

ARTIFICIAL INTELLIGENCE

CPB began deployment of a framework under development in Kansas City to create fairer and more equitable AI models to protect diversity and inclusion while systematically reducing risk for bias.
