EXTRAMURAL RESEARCH

County Health Rankings & Roadmaps, Robert Wood Johnson Foundation, “Building a Circuit of Civic Learning, Dialogue, and Connection to Advance Health Equity: A Deliberative Approach.”

PI: Erika Blacksher Award period: 9/1/2021-12/30/2022 (no cost extension) \$87,847

The first year of this multi-year project will develop a democratic deliberative process, metrics, and materials to convene diverse people to learn and deliberate together about population health challenges facing the nation and the Heartland. Subsequent years will test the toolkit with racially, socioeconomically, and geographically diverse people in Kansas and Missouri.

NIH/NHGRI “Center for the Ethics of Genomic Indigenous Research”

Spicer (PI) Project period: 3/1/2018 – 4/30/2025

Contract – Blacksher is collaborating with CEIGR and tribal leadership in four regions to design, implement, and assess democratic deliberations with tribal citizens about ethical issues in genomic research and use of biobanking to store biological samples and other health related information. Role: Consultant

COMPLETED RESEARCH

NIH/NHGRI R01HG009500 “Community-engaged Research Toward Precision Medicine with AIAN People”

Boyer/Dillard/Woodahl (Multiple PIs) Project period: 9/05/2017 - 6/30/2020

The goal of the project is to gather empiric data and conduct local community dialogues and deliberations across three tribal sites, and a national meeting to address three challenges for implementing precision medicine research involving American Indian and Alaska native (AIAN) people. Outcomes of the project will include policy briefs and other communication projects to inform different stakeholder groups of the findings of this process. Role: Co-Investigator

NIH/NHGRI R01 HG007879 “Community-based Evaluation of APOL1 Genetic Testing in African Americans”

Dual PIs: Young-Mielcarek/Burke Project period: 7/1/2015 – 6/30/18 No cost extension Year 1 Direct cost budget: \$500,788

The overarching goal of project is to identify stakeholder perspectives about APOL1 testing in clinical, transplant, and research settings using mixed methods. Blacksher led design and implementation of community deliberations (Aim 2) and is leading development and submission of a follow-on 5 year R01. 15%FTE

WA State Department of Health, “Public Health Ethics Consult Service”

Role: Co-Investigator

University of Colorado, “Data Science to Patient Value Initiative (D2V)”

Contract – co-lead the development and implementation of a series of symposia on stakeholder engagement in health research and lead or senior author two papers on the use of virtual platforms to engage stakeholders in health research. Role: Co-lead

NIH/NHGRI, P50 HG 003374 “Center for Genomics and Healthcare Equality”

PI: Burke Award period: 5/14/2010 – 3/31/2016 Annual direct cost budget: \$782,532

In this competing renewal for a Center of Excellence in Ethical, Legal, and Social Implications (ELSI) Research, the team is building on their existing work to develop methods for enhancing the benefits of genomic translation, with particular attention to the use of genomic technology to address population health and health disparities. Dr. Blacksher joined as co-Investigator in October 2012-July 2015.

NCI, U54 CA153498-02S3 “Addressing the Challenges of Small Populations Health Disparities Research”

PI: Buchwald Supplement Award period: 9/1/2011- 8/31/2012 Annual direct cost: \$160,125

Dr. Blacksher was co-investigator on this project, a supplement to the Regional Native American Community Networks Program. This project used an innovative mixed-methods approach to data aggregation that, through bioethical discourse and community participation, identified strategies that small American Indian/Alaska Native populations can use to produce meaningful epidemiological descriptions of their local communities to engage in research, inform health decisions, and reduce health disparities.

Kansas Health Institute, vKHI-6.1.2011 “Kansas Legislative Health Academy”

Subcontract PI: Blacksher Award period: 6/10/2010 – 5/31/2012 \$17,000

Dr. Blacksher served as a design team member and instructor for the Kansas Health Institute’s Legislative Health Academy, a unique certificate program for legislators to learn new skills in health policy ethics, systems thinking, and civic leadership. Participated in the development of the Academy’s goals and structure and developed and delivered health policy ethics curriculum.

Robert Wood Johnson Foundation Health & Society Scholar

- Health Justice. Public Deliberation Regarding Alternative Distributions of Health. Dr. Blacksher was co-PI (with Dr. Elizabeth Rigby) on this mixed-methods study to elicit and assess public values and priorities related to social inequalities in health. Dr. Blacksher co-developed the conceptual framework, conducted the focus groups, and participated in the qualitative analysis of data. Role: Co-Principal. \$11,990, 01/07-08/08.
- Capability Theory Workgroup. Dr. Blacksher was co-PI (with Dr. Kim Hopper, PhD) on this project to convene multi-disciplinary scholars to study implications of capability theory (pioneered by economist Amartya Sen and philosopher Martha Nussbaum) for population health inquiry Role: Co-Principal Investigator. \$5,000, 12/06-08/08.
