

America's Nursing Crisis: What Should Be Done? Thursday, August 4, 2022

FREE EVENT

**CENTER FOR PRACTICAL
BIOETHICS**

Is "crisis" an accurate description of what nurses are currently facing?

Was this preventable or inevitable given a pandemic crisis?

What ought to be done as a matter of policy/protocol to improve the workplace for nursing and healthcare outcomes?

A severe nursing shortage is predicted, with potentially serious impacts on access and quality to healthcare. Using principles of ethics, nurse leaders will address the nursing crisis to understand what is going on and what might be a fitting response.

Speakers

Keynote Speaker

Karen Cox, PhD, RN, FACHE, FAAN
President, Chamberlain University

Host

Tarris Rosell, DMin, PhD
Rosemary Flanigan Chair,
Center for Practical Bioethics

Panelists
